ENDEAVOUR
PRO

FORM MEETS FORTITUDE

Engineered to take on any adventure. And look good while doing it.

Titanium Alloy Bezel
Scratch-resistant Glass

READY FOR EVERY EXTREME

Drop after drop. Depth after depth. Endeavour Pro leads through whatever your training demands, be it surviving over 2,000 drops, staying watertight even at 164 feet, or performing flawlessly whether it's -5°C or 50°C.

Heat-resistance

50°C

Cold-resistance

-5°C

PREPARED FOR ANY SCENARIO

6 Hours of continuous light for night training, low-visibility conditions, with red LED light for emergency situations while exploring the outdoors.

ALL YOUR VITAL STATS. ONE SMARTWATCH.

Heart Rate Variability

Sleep Tracking

Daily Activity Tracker

Stress Tracking

TRAIN ANYWHERE, SHARE EVERYWHERE

With built-in Strava and Apple Health integration, Endeavour Pro keeps your training connected by seamlessly syncing every heart rate spike, calorie burned, GPS-tracked route, and workout summary through the NoiseFit App.

TAKE THE GUESSWORK OUT OF PROGRESS.

Don't just train harder, train stronger with performance trends and personalised summaries.

THE SMARTER WAY TO SWEAT

For the first time on the NoiseFit App, you get preloaded courses which means no screens to scroll, and no reps to count. Courses give you guided training from start to finish, so when it's time to move, your focus stays all in.
