The ultimate 3-in-1 scooter that grows with your child – from 18 months to 6+ years. It starts as a ride-on with a push bar for easy parent steering. Remove the bar to let toddlers ride independently. Later, transform it into a Mini Micro Deluxe scooter. It ensures comfort, stability and years of fun.

WHY MICRO?

1

The original

In 1999, Micro invented the first foldable aluminum scooter and the three-wheeled kickboard.

Pioneering spirit

Over 50 award-winning innovations, including the popular Mini Micro for children and the smallest electric city car, the Microlino.

Family values

Wim, Janine, Oliver and Merlin Ouboter run the 100% family-owned Swiss company.

Built to last

Micro products are extremely durable and made with replaceable parts – built to be passed on to future generations.
