SAFETY

SÉCURITÉ · SEGURIDAD

Rods are long enough not to be swallowed by children.

Les tiges sont assez longues pour ne pas être avalées par les enfants.

Las barritas son lo suficientemente largas como para que no puedan ser tragadas por los niños.

Magnets are securely fastened to the rods.

Les aimants sont moulés dans les tiges pour assurer une solide fixation.

Los imanes están fuertemente sujetos a las barritas.

Spheres are not magnets and are not toxic if accidentally swallowed.

Les sphères ne sont pas des aimants et ne sont pas dangereuses en cas d'ingestion accidentelle.

Las esferas no son imanes ni son tóxicas, en caso que se ingieran accidentalmente.
